LIVING?

Let's take a trip to the age of modernism!
Weimar used to be home to an exciting
school - the Bauhaus.

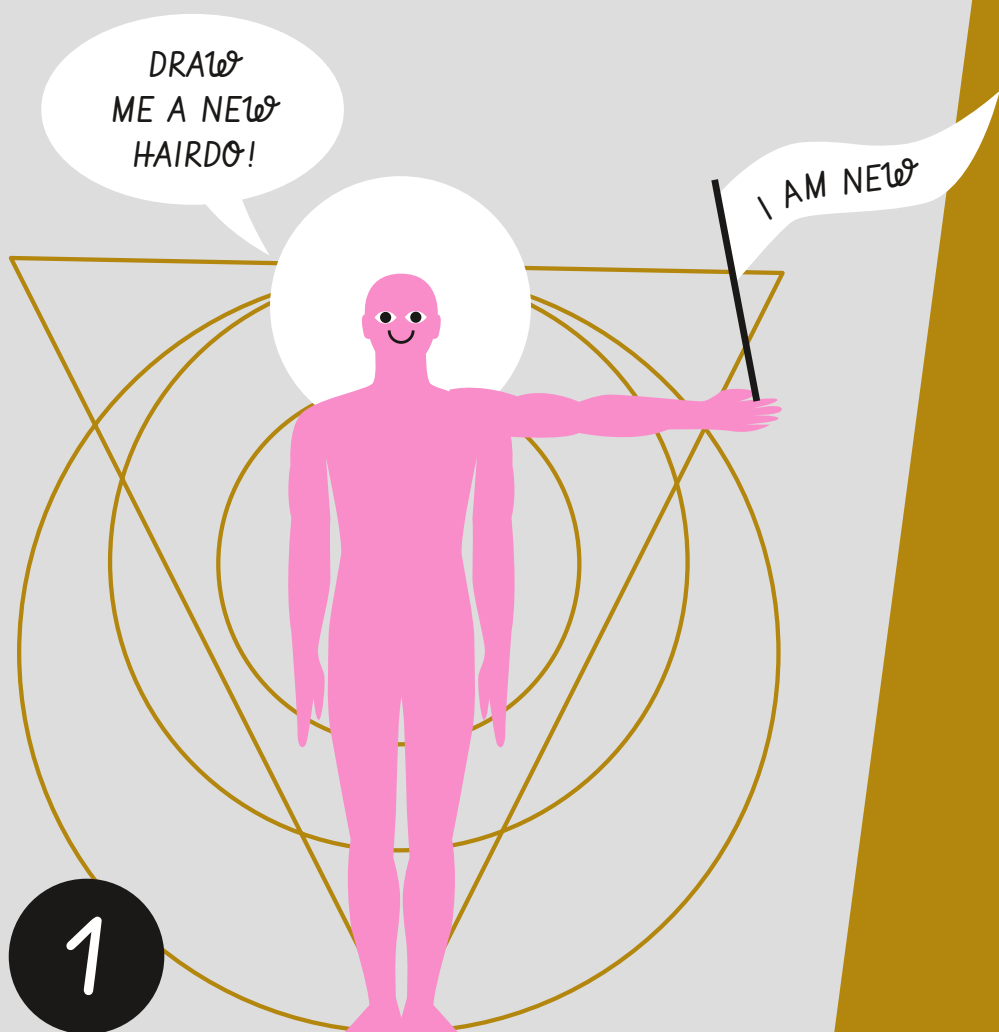

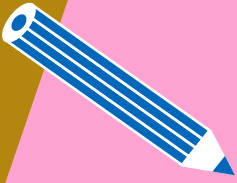

Curious adults with big ideas went there to make the world a better place. They also threw wild parties and had lots of fun!

TOGETHER?

THE EXHIBITION STARTS
ON THE 1ST FLOOR!

The Bauhaus was founded in 1919 – over 100 years ago. It was a time when everything was changing quickly. That’s why there were many ideas for the “new people” of the future.

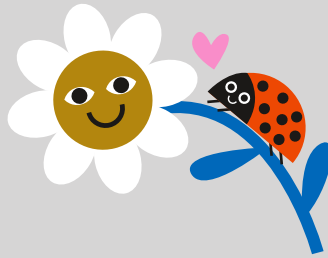

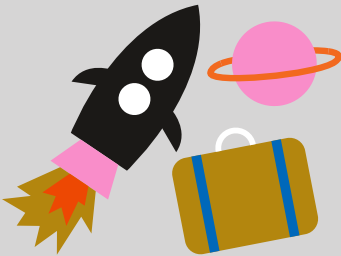

What's important to
your new human being?

Bauhaus students were always experimenting. They played around with shapes and bright colours. Lots of things can be built with a triangle, circle and square – like this cradle.

Students were taught to explore the world with all their senses – also by moving and dancing!

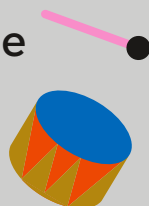

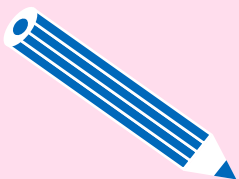

Can you make these shapes with your body? Use your arms and legs and become a shape!

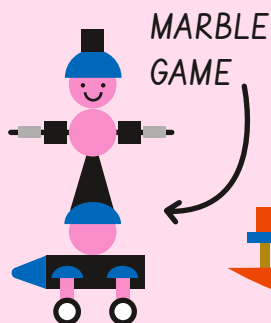

The same shapes were used to build furniture and houses. Here you see the furniture and toys for the children's room at the Haus Am Horn, the very first Bauhaus home. Everything is colourful, fun and totally multi-functional.

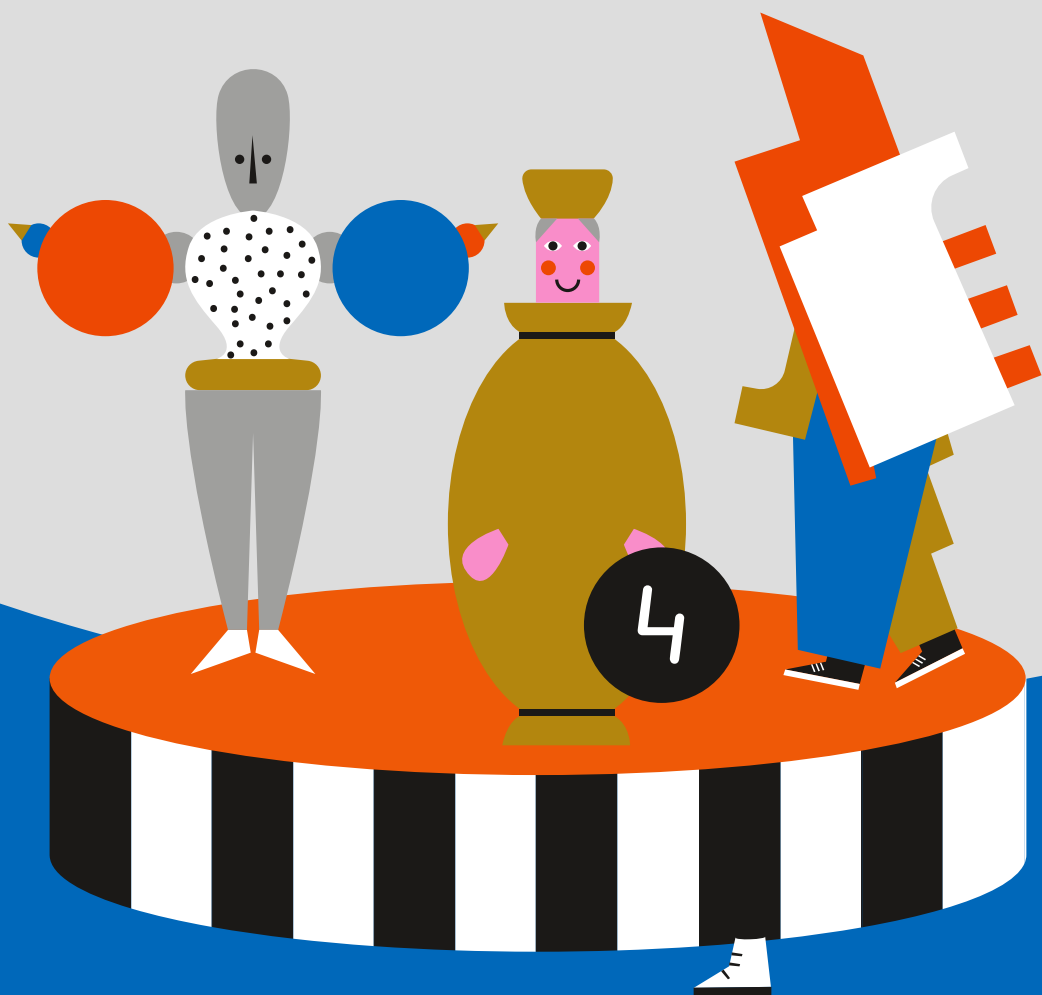

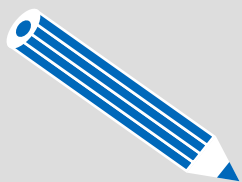

Where are the toys hidden
in the picture above?

Draw a circle around them!

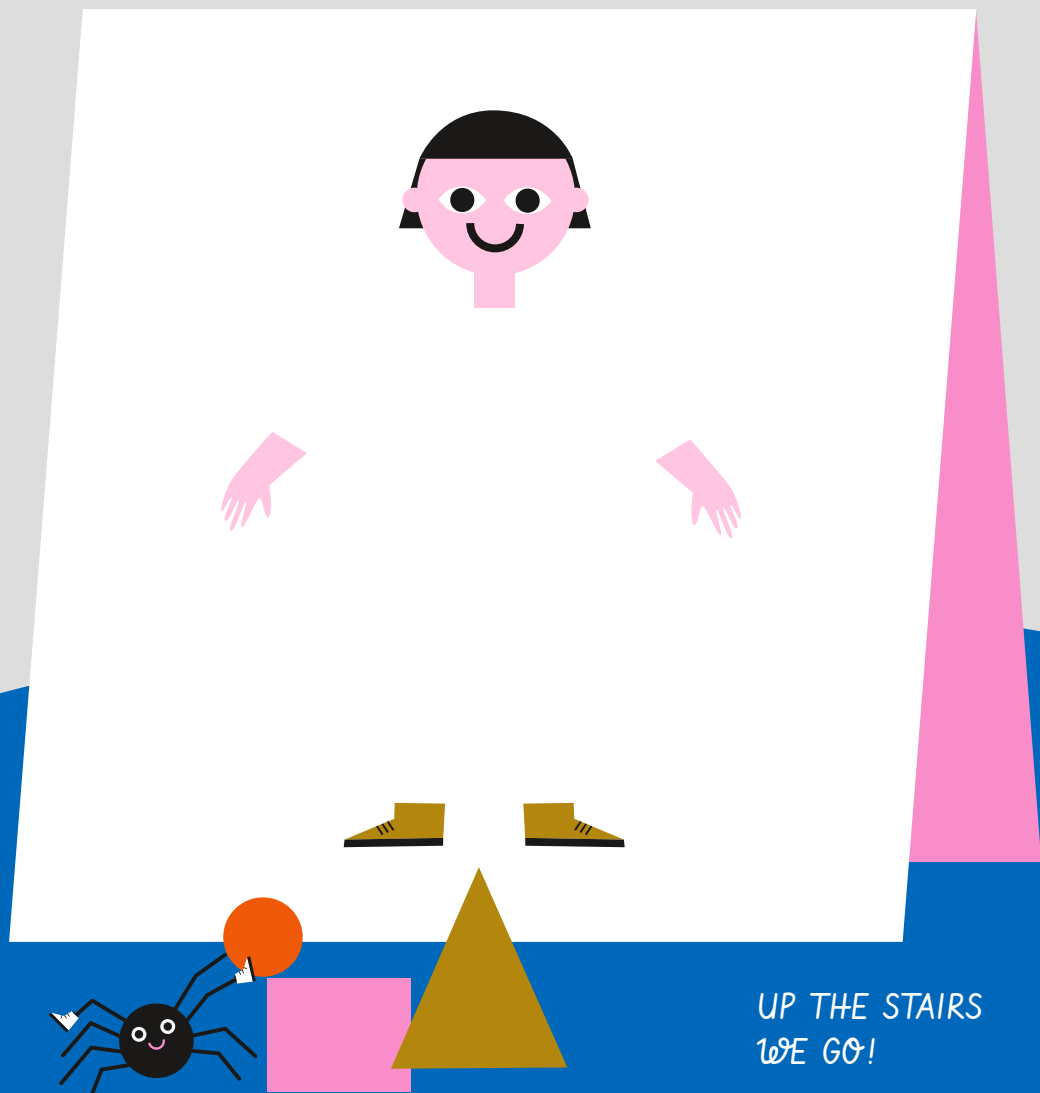

The Bauhaus wasn't all about work – students also played games and threw parties! With dolls or full-sized costumes, they came up with new ideas for the people of the future.

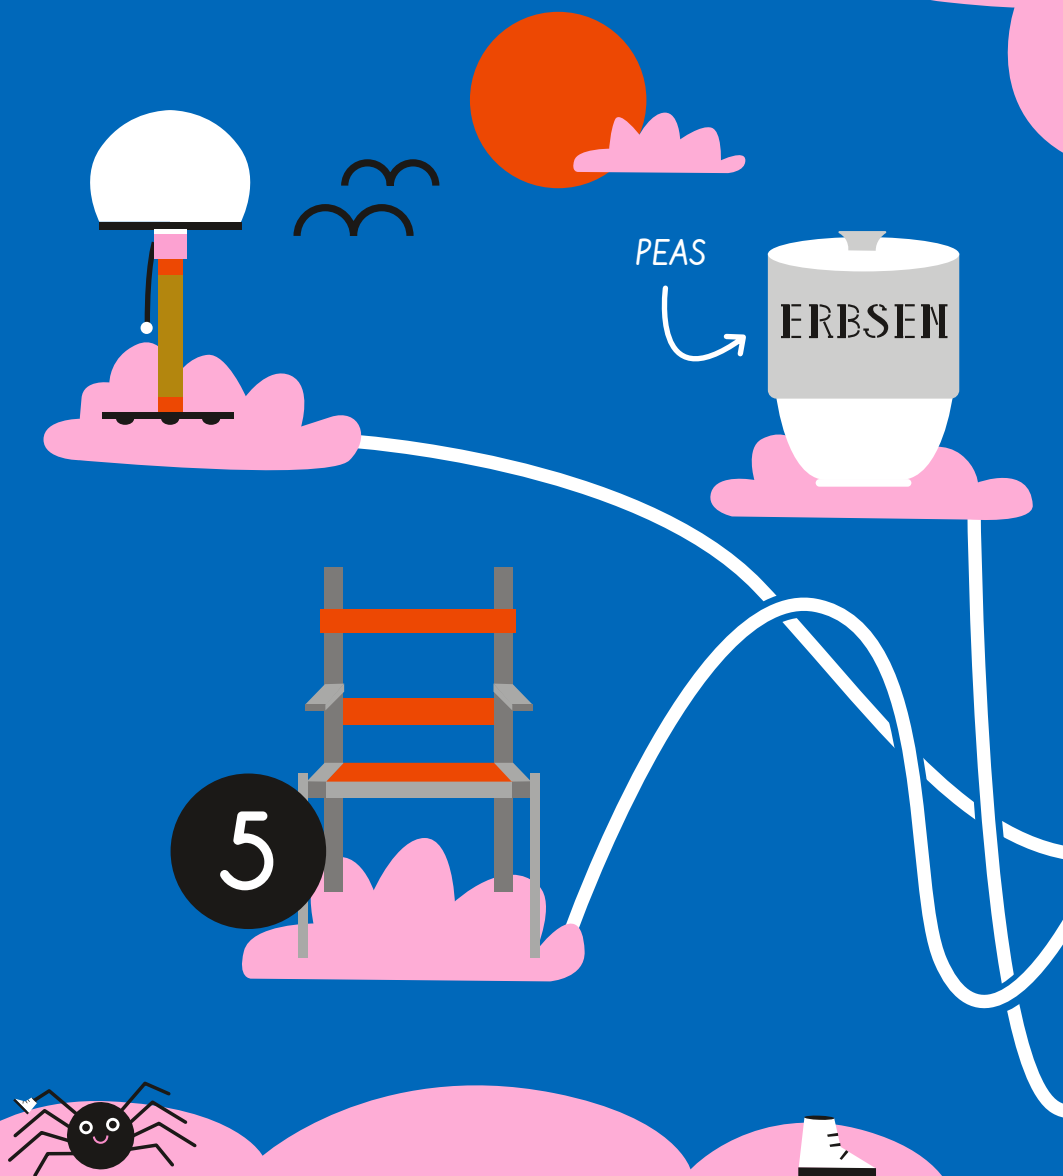

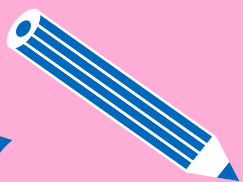

Draw a cool costume for
your own play. Try to use
only simple shapes like
triangles, circles or squares.

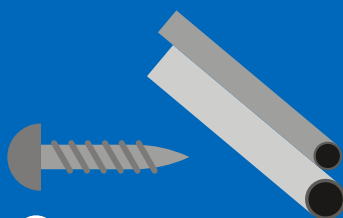

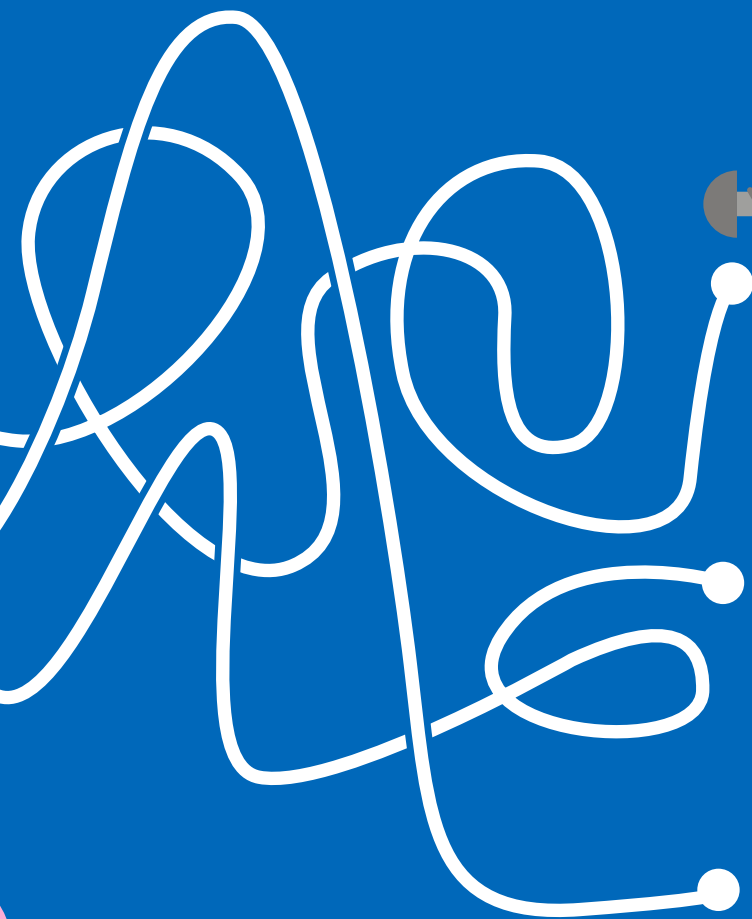

UP THE STAIRS
WE GO!

Here we find many different things created by Bauhaus students. Look for them in the big display case!

Everyone at the Bauhaus tried to imagine how people would live in the future. What will furniture, houses and cities be like in your future?

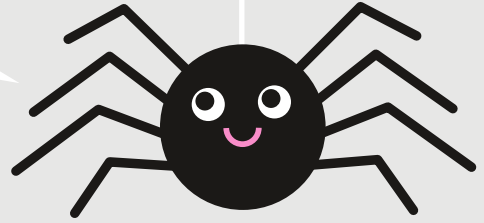

Look at the alphabet blocks on the wall. Find six letters in a row that complete the missing word. Hint: It begins with “m”!

FIND THEM? DRAW A CIRCLE
AROUND THEM!

The Bauhaus existed only 14 years as a school. It all started in Weimar. Later it moved to Dessau and then Berlin. Finally, it was shut down because it was too modern for Germany's new government. Many Bauhaus students and teachers moved abroad and took their ideas with them.

p. 1: Spider
p. 11: bead doll - in the air, ship-building game - shelf, marble game - left child
p. 17: "Our homes will be more mobile than ever."
p. 18: Shoes on pages 3, 6, 9, 11, 12, 13, 15, 17
